Powerful Productivity Tools

Built on the latest Adobe PostScript Engine, Roland VersaWorks professional RIP software supports Roland Intelligent Pass Control technology for flawless image quality at the highest print speeds. Among its many features, VersaWorks includes the Roland Color System for precision spot color matching and offers advanced cropping, tiling and nesting options. VersaWorks also includes Variable Data Printing, the Max Impact[™] Preset for richer color contrast, embedded ICC profile support, ink level adjustment tools and software proofing capabilities. VersaWorks supports Windows Vista[®] and 2000/XP and works seamlessly with your favorite design software, including Adobe Illustrator, Photoshop and CorelDRAW. You can control up to four Roland printers from one personal computer. And you will always be up to date with the latest software updates and media profiles with the VersaWorks Roland@NET auto update service.

Fast Start-Up and Easy Operation

VersaArt series is designed for ease of use. Novices and professionals alike will appreciate the fast learning curve and easy procedures to start up, operate and shut down the printer. No mess 220/440 cc ink cartridges are easy to handle. Newly designed media shafts and flanges support rolls up to 40kg (88 lbs.) for unattended printing. VersaArt is also virtually maintenance free for even greater simplicity and productivity. Measuring just 2.6 m wide x 1.1 m high (101" wide by 43" high), the VersaArt RS-640 fits conveniently in just about any small shop environment. Expanding your production environment is easy as well because every Roland inkjet printer shares the same start up and operation procedures.

Exceeding Current and Future Environmental Standards

VersaArt technology is Energy Star certified and operates without an additional power supply on a standard household electrical outlet. Advanced features optimize VersaArt ink consumption, reducing environmental waste and minimizing operational costs as well. Certified by Roland's Eco-Label system for environmental compliance, VersaArt series has been fully assessed for its environmental attributes.
